"The Food That Digests Itself"

Taroena

The New Tuber Food

For Invalids and Infants

The weakest invalid or infant can digest and assimilate Taroena. It "stays down," gives the stomach a rest, is very nutritious and strengthening. Babies tease for it, it is so delicious. It never makes them colicky or peevish. They sleep well and don't have summer troubles when fed on Taroena. It has all the food elements necessary to nourish the entire body, is digested without effort; does not cause drowsiness or distress after it has been eaten. People with or without all other food can eat and enjoy Taroena. It is so easy to digest and so completely absorbed that it is being served in the best hospitals preceding and following surgical operations where the patient must be nourished without any tax upon his enfeebled system.

Taroena is cooked, unsweetened Hawaiian taro meal—nothing added, nothing taken away. Regular size 50c., large $1.00, hospital size $3.00 at druggists, or by mail, prepaid.

FREE SAMPLE Enough for four meals, including an interesting book about Taroena, will be forwarded, prepaid, providing 10c. in stamps is sent to pay for packing and mailing.
